➤ **Interactive Talk on Mental Health "Self Love-Self Compassion"**

On behalf of IMS-AICTE's Fit India Movement G.O.A.L.S. (Goals for Active Life Style) initiative, in association with the IMS Learning Resource Center's Student Library Committee, we have invited the expert Prof. Sukanya Phansalkar to deliver a lecture and conduct an interactive session on "Self-Love - Self Compassion" on December 13, 2022, at 10:00 a.m. Prof. Sukanya Phansalkar is a certified psychologist, counselor, psychotherapist, and life coach. She has many years of experience in teaching, counseling, research, corporate training, and academic administration.

The concept behind this initiative is to move towards a more active lifestyle, recognizing the importance of mental health. Our emotional, mental, and social well-being are all parts of our

mental health, discussed how it affects our thoughts, feelings, and behavior. Prof. Sukanya gave valuable guidance on how to speak and act in harmony with the situation in front of us. How we look at ourselves from birth—"who am I?" "how am I?" and "how perfect am I?"—we should decide for ourselves. How I look and what I should do determine our behavior, and if it doesn't happen, we blame ourselves. We should admit to ourselves that we can never fail in our lives. She guided the audience with various examples of this.

Whether you look beautiful because of the praise of others or because you are satisfied with yourself, you should realize that you are beautiful and happy. No matter how well you dress, if you are not normal, it is of no use. In addition, it affects how we respond to stress, interact with others, and make good decisions. Every period from childhood and adolescence to adulthood is important for mental health, as she told the audience. The program was well attended by faculty, staff and students.
